**Special Provisions**

1. Page 79, Lines 4 and 5 are deleted and replaced with the following:

Joint bars shall not be installed inside limits of crossing or within 15' of ends of crossing except that frogs will not be welded on either rail at both ends. At frog joints within limits of crossing, rubber interface shall be installed at joint bars on gauge side of rail by cutting away flangeway portion of rubber interface where joint bar falls. Field side rubber interface shall be eliminated entirely at joint bars. At heels of frogs, one or both field side interfaces shall not be installed, as necessary, where interference with other field side interface exists.
