Tri-Cities Airport Temporarily Closes Runway for Construction

Runway closures are scheduled part of project timeline

Pasco, WA – The Tri-Cities Airport (PSC) has closed Runway 12/30 and sections of several taxiways until November, as part of a planned construction timeline to bring the runway into compliance with new federal safety standards.

During the construction period, all aircraft will utilize the airport’s 3L/21R runway for takeoffs and landings. While the closure will not affect the traveling public, residents between Road 68 and the airport may experience additional airplane noise.

The planned closures of Runway 12/30 and portions of Taxiways D, E, and G will allow construction crews to shift Runway 12/30 200 feet to the north. The move will also accommodate a new airfield service road.

About the Airport

Tri-Cities Airport (PSC) is the largest airport in the Southeastern Washington and Northeastern Oregon region and the third largest air carrier airport in the state of Washington. With connections to several major hubs, the airport is served by Alaska, Allegiant, American, Avelo, Delta, and United airlines. For more information about the airport, visit flytricity.com or follow us on [Facebook](#) and [LinkedIn](#).
